- 6. New Business**
 - a) Nomination from committee for Chair and Vice-Chair**
- 7. Adjourn**

WDMA Proposed Changes to NFPA 80 – Chapter 4 General Requirements

4.4 Glazing Materials in Fire Doors

4.4.1 Only labeled fire resistance or fire protection glazing material shall be used in fire door assemblies when permitted by the door listing.

4.4.2 Fire protection glazing and fire resistance glazing shall meet all applicable impact safety standards.

4.4.3 Glazing materials in vision panels shall be installed in labeled glass kits or in accordance with the fire door listing and shall be installed in accordance with manufacturer's installation instructions.

4.4.3.1 For new wood doors, glazing materials in vision panels shall be installed in labeled glass light kits or in accordance with the fire door listing and shall be installed in accordance with inspection service procedure and under label service except as allowed per 4.4.3.2.

4.4.3.2 Field glazing of labeled vision panels shall be allowed for new wood doors with light cutouts machined under labeled service, when the installation does not require more than two-piece vision panels with glass and supplied fasteners.
